

FH-60 SERIES FIBRE HOLDER

FEATURES

- ▶ Fujikura FuseConnect™ option type.
- ▶ Fibre holder options for various types of cables.

FuseConnect™ Options

Fibre Holder Options

GENERAL SPECIFICATIONS

Applicable number of fibre			Single
Type variation			In accordance with outside diameter of fibre Please see VARIATION table below
Fibre holding			Magnetic clamping
Fibre Holder placing onto splicer			Guide-pin system with two pins per one side of Fibre Holder
Dimensions			38L x 16W x 7H (mm)
Weight			20g for 1pair
Material			Base plate: Heat-hardening plastic / Lid: Iron-Nickel alloy
Use for	Arc Fusion Splicer	Single	70S, 62S, 22S, 12S, 60S
		Mass	FSM-60R, FSM-18R, 70R, 19R, 12R and previous Fujikura mass fibre splicers
	Fibre Cleaver		CT-30, CT06
	Jacket Stripper		HJS-02, HJS-03 (FH-60-250 only)

VARIATION

Model	FH-60-250	FH-60-900	FH-60-DC250	FH-FC-20	FH-FC-30
Fibre	Single (250µm)	Single (900µm)	Drop Cable (250µm)	900µm 2mm	900µm 3mm

FH-60 SERIES FIBRE HOLDER

The FH-60 series single fibre holder is exclusively used for Fujikura-70S, Fujikura-62S, Fujikura-22S, Fujikura-12S, FSM-60 series, FSM-18 series, SpliceMate and previous Fujikura splicers. The Fujikura Fibre Holder System is developed to provide appropriate splicing work for several kinds of fibres, single fibres or ribbon fibres. The FH-60 series is supplied as a pair, for the left and the right respectively. As for a fibre holder for ribbon fibre, see the FH-50 series datasheet.
